Public Open Invitation to Self-determination Meeting

Our Rainbow Nation was once the envy of Africa and the world. That treasured ideal has been shattered by the escalation of corruption, violence, crime and government-sanctioned racial hatred.

For the threatened minority groups in this country there can be no higher priority than *to work together for just one*, mutually beneficial goal.

We have the **legal and internationally sanctioned right** to self-determination.

The United Liberty Alliance is a non-political civil rights entity with a single aim:

to secure a mandate that will enable South African minority groups to claim their right to self-determination. We have embarked on a campaign to obtain two million signatures for a mandate that legally complies with the requirements of international laws on secession.

The United Liberty Alliance accepts as an article of faith that a broad consensus on self-determination is sufficient ground for multi-way alliances between *all interested minority groups*. Multi-way alliances can therefore provide the vehicle that will make secession a reality.

We recognise that the urgency of our message may cause discomfort to sections of the population. We would not intentionally cause affront to our allies or other concerned citizens, and we *apologise* if we cause, or have caused, inadvertent offence during our drive for two million votes.

However, we do intend to challenge the unmindful acceptance of the political status quo. We therefore invite those leaders who *sincerely care* about the futures of their people, children and grandchildren, to an urgent round table discussion. We call on you to *attend* a formal assembly without delay.

Let trustworthy, real leaders of the people step forward to focus their efforts on the true, *unvarnished needs* of their people. **We dare not postpone the journey to self-determination any longer.** We extend a *heartfelt plea* to the leaders of every minority group, and their supporting political parties, to attend this landmark conference.

- ✓ We do not ask for funding, but will accept donations for the purpose of Sovereign Self Determination.

EX UNITATE VIRES

- ✓ We do not ask that you leave any political party or Interest group. In fact, we welcome diversity.

We herewith **publically invite** artists, singers, YouTube influencers, Bloggers, Facebook, Twitter & Instagram Groups, Human Rights & Civil Rights activists and organisations, and minority representatives from every sphere of interest.

Due to the political Diaspora of highly qualified South Africans, we particularly invite leaders from our large ex-pat community. If you are unable to attend, we welcome a formal letter expressing your interest in signing the Accord.

All we ask is that you *rise above* petty political correctness and empty virtue signalling. Show your courage. Formally explore your people's interest in self-determination.

Matters for discussion:

- ✓ Acknowledgement of the separate and unique identities, aims and focus of each minority group.
- ✓ Finding common ground and identifying shared interests.
- ✓ Affirmation of the necessity to work together to achieve a limited, mutual aim.
- ✓ Clarifying the mandate and establishing working parties to define the role and contribution of each group.
- ✓ Agreement to encourage members to vote for self-determination.
- ✓ Signing of the '**2019 Accord for Self-Determination**' for global distribution and delivery to the American Government, the United Nations and other international interested parties and countries.

Make sure you are *included*. Make sure you are a part of *this historic moment!* We sincerely look forward to a united effort, for all to achieve self-determination.

DATE: **9 August 2019**

WHERE: **Cape Town (venue to be confirmed)**

TIME: **10H00**
